

Yaseen Mohammed

Richardson, TX | Data Engineer | M.S. Business Analytics & AI

Experience

Data Engineer | Zinzu

Current

- Develop and maintain backend scripts and data infrastructure to support core business operations.
- Implement automated pipelines for data extraction, transformation, and loading.

Projects

GA4 Conversion Predictor

- *Predictive Modeling*
- Engineered BigQuery SQL and PySpark scripts to flatten GA4 event data, extracting geo.country parameters.
- Built predictive models to forecast user conversion based on behavioral navigation paths.
