

Yaseen Mohammed

Plano, Texas, 75074 | Data Engineer & Analyst | 469-512-0058 | Yaseenam3@gmail.com | linkedin.com/in/yaseenam

EDUCATION

The University of Texas at Dallas

May 2026

Master of Science, Business Analytics and Artificial Intelligence

The University of Texas at Dallas

December 2023

Bachelor of Science, Data Science

SKILLS

- **Certifications:** AWS Certified Machine Learning, Microsoft Azure Data Scientist Associate
- **AI & Data Science:** Machine Learning, Natural Language Processing, Generative AI (GPT API), Business Analytics, Statistical Analysis, Feature Engineering
- **Programming:** Python, SQL, R, JavaScript, HTML/CSS
- **Analysis & Visualization Tools:** PowerBI, Tableau, Scikit-learn, MS Excel, RStudio
- **Data & Cloud Tools:** Azure infrastructure, AWS infrastructure, Spark, Hadoop, MySQL, MongoDB

PROFESSIONAL EXPERIENCE

Data Engineer | Zinzu, Redmond, WA

March 2024 - Present

- Integrated GPT API-powered natural language analytics into a live platform, enabling adaptive AI-driven insights and improving user-facing data accessibility.
- Researched and compiled a 21-page geospatial analytics report covering use cases, implementation strategies, and competitive analysis, presented directly to the CEO for strategic AI planning.
- Engineered scalable data infrastructure using Azure services (SQL, NoSQL, Cosmos DB) supporting 70% of operational data, collaborating cross-functionally with engineering and business stakeholders.
- Automated backend server workflows via Bash scripts and Azure Monitor, reducing manual task time by 70% and ensuring continuous deployment alignment.

Business Analyst | Standard Aero, Dallas, TX

February 2025 - August 2025

- Collaborated with multiple departments to gather business requirements and translate them into actionable Power BI reporting solutions, monitoring KPIs and individual performance metrics.
- Applied predictive statistical techniques to forecast KPIs, ensuring alignment with company performance goals and delivering data-driven insights to leadership.
- Designed and implemented data pipelines between Snowflake and Oracle using advanced SQL transformations to prepare data for analytics and reporting.
- Enhanced financial visibility by updating billing reports with quarterly budgets and dynamic KPIs, supporting executive decision-making.

Data Scientist Intern | Autix Automotive, Dallas, TX

August 2023 - December 2023

- Developed NLP-based text extraction workflows using GPT API to convert unstructured data into structured datasets, boosting predictive power by 30% and saving \$80k in software costs.
- Improved ML model accuracy by 70% using Scikit-learn, XGBoost, and ensemble methods to optimize predictive pricing models.
- Led a team through AI model development, data preprocessing, and pipeline creation, coordinating task execution and ensuring efficient collaboration.
- Built scalable data pipelines for web scraping and data cleaning, storing processed results in Azure Blob Storage for reliability.

Data Science Intern | Vital Synapses, Dallas, TX

May 2023 – August 2023

- Created an automated data pipeline for processing healthcare insurance claims, streamlining data extraction, cleaning, and transformation for analytics.
- Developed 10+ Power BI dashboards visualizing relationships between claim processing times and diagnostic factors, enabling stakeholder decision-making.
- Applied regression and hypothesis testing to diagnose lead times for 70% of insurance claims, uncovering root causes of delays and recommending process improvements.
